

壁掛形非常用放送設備 システム図

天井埋込スピーカー (ATT付)

Technical drawing and specifications for ceiling-mounted speaker with ATT. Includes dimensions (134, 215.5, 180, 88.5) and a table of input/output levels and frequency characteristics.

露出形スピーカー (ATT付)

Technical drawing and specifications for exposed speaker with ATT. Includes dimensions (250, 78) and a table of input/output levels and frequency characteristics.

防滴スピーカー

Technical drawing and specifications for drip-proof speaker. Includes dimensions (158, 203, 180) and a table of input/output levels and frequency characteristics.

アッテネーター (0.5~6W)

Technical drawing and specifications for attenuator. Includes dimensions (70, 120, 48) and a table of input/output levels and frequency characteristics.

壁掛形非常用放送設備 (10局60W)

Technical drawing and specifications for the main unit. Includes dimensions (450, 150, 664) and a table of power, input, and output specifications.

天井埋込スピーカー

Technical drawing and specifications for ceiling-mounted speaker. Includes dimensions (80, 185, 46, 112) and a table of input/output levels and frequency characteristics.

天井埋込スピーカー

Technical drawing and specifications for ceiling-mounted speaker. Includes dimensions (174, 230, 75, 230) and a table of input/output levels and frequency characteristics.

天井埋込型防滴スピーカー

Technical drawing and specifications for ceiling-mounted drip-proof speaker. Includes dimensions (180, 107) and a table of input/output levels and frequency characteristics.

ホーン型コーンスピーカー (30W)

Technical drawing and specifications for horn-type cone speaker. Includes dimensions (300, 300, 202) and a table of input/output levels and frequency characteristics.

スピーカー制御ボックス

Technical drawing and specifications for speaker control box. Includes dimensions (162, 120, 40) and a table of power and control specifications.

電源

Table of power specifications including AC100V 50/60Hz, input levels, and speaker details.

天井埋込スピーカー (ATT付)

Technical drawing and specifications for ceiling-mounted speaker with ATT. Includes dimensions (80, 185, 46, 112) and a table of input/output levels and frequency characteristics.

天井埋込スピーカー (ATT付)

Technical drawing and specifications for ceiling-mounted speaker with ATT. Includes dimensions (174, 230, 75, 230) and a table of input/output levels and frequency characteristics.

壁掛スピーカー

Technical drawing and specifications for wall-mounted speaker. Includes dimensions (290, 135, 214) and a table of input/output levels and frequency characteristics.

屋外対応型ボックススピーカー

Technical drawing and specifications for outdoor box speaker. Includes dimensions (155, 246, 170, 293) and a table of input/output levels and frequency characteristics.

電源制御ボックス (カットリレー)

Technical drawing and specifications for power control box with relay. Includes dimensions (163, 115, 36) and a table of power and control specifications.

壁掛形非常リモコン (10局)

Technical drawing and specifications for the remote control. Includes dimensions (450, 75, 265) and a table of power and control specifications.

天井埋込スピーカー

Technical drawing and specifications for ceiling-mounted speaker. Includes dimensions (134, 215.5, 180, 88.5) and a table of input/output levels and frequency characteristics.

露出形スピーカー

Technical drawing and specifications for exposed speaker. Includes dimensions (250, 78) and a table of input/output levels and frequency characteristics.

壁掛スピーカー (ATT付)

Technical drawing and specifications for wall-mounted speaker with ATT. Includes dimensions (290, 135, 214) and a table of input/output levels and frequency characteristics.

アッテネーター (1W)

Technical drawing and specifications for attenuator. Includes dimensions (70, 120, 48) and a table of input/output levels and frequency characteristics.
